

**Mines Rescue**

**Mines Rescue Service Limited  
Crossgates, Fife**

## **MINES RESCUE SERVICE LIMITED TESTIMONIAL TO BUSINESS MEDICAL LIMITED**

For over 100 years, Mines Rescue Service has developed its specialist skills, experience and knowledge gained from working in a difficult and potentially dangerous environment, to effect the rescue and escape of mineworkers from underground.

Following the return of the coal mining industry to the private sector, Mines Rescue Service Ltd now brings this expertise to support a comprehensive range of health and safety related products, training and services available to a wide range of private sector companies, large and small businesses and public sector organisations.

We were looking for a local OH provider who could provide the highly specialised service required to assess the staff as being medically fit for working in dangerous environments.

Business Medical visited us to understand our specific needs and now provide a cost effective service from their facilities in Dunfermline. They sought HSE guidance to ensure that their procedures for assessing fitness levels of staff were both thorough and safe.

Their knowledge and understanding of OH provides us with the relevant advice allowing us to make appropriate decisions regarding the wellbeing of our staff.

Mines Rescue Services Ltd – Crossgates would recommend Business Medical Limited to employers.
